

LED NOTIFICATION APPLIANCES

400 SERIES

MGC's Notification Appliances offer an audible/visual solution that delivers exceptional energy efficiency in a compact design.

MGC offers multiple field – selectable audible/visual settings, as well as a wide range of mounting options in an easy to install compact unit.

Utilizing advanced LED technology, the MGC Notification Appliances provide a much lower current draw than xenon bulb technology. This in turn allows for more devices on a NAC circuit while reducing the number of external power supplies required.

Designed for indoor/outdoor wall or ceiling mount applications, MGC's Notification Appliances comply agency requirements including the NFPA 72, UL 1971, UL 1638, UL 464, ULC S525 and ULC S526.

FEATURES

- Standard and high candela settings in one unit (Horn Strobe) to meet virtually any application
 - Wall Mount models: 15, 15/75, 30, 75, 110, 185 cd
 - Ceiling Mount models: 15, 15/75, 30, 75, 110 cd
 - Reduction in SKUs to stock
- Multiple field-selectable audible settings
 - Temporal, Continuous, March Time and 20 BPM audible tones
 - High and low volume settings
- Weather Protected Devices Temperature ranges from -40°C to 66°C (-40°F to 151°F)
- Low Frequency 520 Hz operation range

ENERGY EFFICIENT

- Advanced LED technology provides superior current draw performance
 - Allows for a higher capacity of notification devices per circuit
 - Eases external power supply requirements

EASY TO INSTALL

- Indoor & Standard frequency models include a mounting plate that allows for devices to be pre-wired.
- Wide range of mounting options
 - Mount to Mircom BB-400 surface mount back box, single gang, 4-inch square, double gang, octagon and 4-inch junction boxes

SPP/SPPS SERIES

MGC's Speakers and Speaker Strobes extend the notification appliance offering to provide a complete family lineup which utilizes advanced LED technology.

Designed for indoor/outdoor wall or ceiling mount applications, MGC's Speakers and Speaker Strobes are offered in 25/70 V, high candela and red/white options for flexibility.

MGC also offers a trim plate/adaptor kit for retrofit applications where ceiling back box space is limited.

MGC's Speaker and Speaker/Strobes comply with agency requirements including the NFPA 72, UL 1971, UL1638, UL1480, ULC S526 and ULC S541.

FEATURES

- All models with 25V/70V options
- All models with RED or WHITE options
- Speaker Power Setting: ¼, ½, 1, 2 W
- Built-in Synchronization Candela Settings for Speaker/Strobes
- Wall Mount models: 15, 30, 75, 110, 185, 15/75 cd
- Ceiling Mount models: 15, 30, 75, 110, 125, 15/75 cd
- Ceiling Mount High Candela models: 50, 75, 90, 130, 185, 15/75 cd
- Weather Protected Devices Temperature ranges from -40°C to 66°C (-40°F to 151°F)

ENERGY EFFICIENT

- Advanced LED technology provides ultra low current draw performance
 - Allows for a higher capacity of notification devices per circuit
 - Eases external power supply requirements

EASY TO INSTALL

- Wall models can be mounted directly onto a 4" square back box.
- Ceiling model can be mounted on a 6" round flush back box (IB-104)
- Optional spacer (SPKC-W) for mounting on a 4" square electrical box

About Mircom®

Founded in 1991, Mircom is a global designer, manufacturer and distributor of Intelligent Building Solutions. Reaching customers in over 100 countries worldwide, Mircom's portfolio includes: fire detection & alarm, communications & security, mass notification, nurse call, and building automation & smart technologies. Mircom's vision is to make buildings worldwide safer, smarter, and more livable.

Our global network of dedicated Sales and Service Offices, known as Mircom Engineered Systems, allows us to be a full solution provider. Through Mircom ES, we're able to provide and fully service our line-up of innovative and advanced solutions which are scalable to satisfy diverse user demands, from small & mid-size buildings to the world's most complex applications.
